Where we cooperate with external service providers, these have been carefully selected by us and meet the high requirements regarding data protection and data security. They are committed to strict confidentiality and process the data exclusively on our behalf and in accordance with our instructions. #### **c) Google web analytics services**

##### *Google Analytics*

We use Google Analytics for the needs-based design and continuous optimisation of our websites. These are provided by Google Inc, 1600 Amphitheatre Parkway in Mountain View, California, United States. While you visit our website, our system creates anonymous usage evaluations, which include the following data:

Information on the browser type and version used; the user's operating system and Internet service provider; the user's IP address; the website from which the user accesses our websites; the websites accessed by the user's system via our website.

After you leave our website, the data collected are transmitted to a Google server in the USA, and are stored there to analyse your use of our websites, create reports on website activity and provide additional services related to the use of the website.

Under no circumstances will Google link your IP address with other Google data. The IP addresses are anonymised, so that association with a specific user is not possible.

Google Analytics uses cookies (see above). These are text files that are stored on your computer and enable the analysis of your website use. The information generated by the cookie on the use of this website is generally transmitted to a Google service where it is then stored.

We use Google Analytics to analyse the use of the website and regularly optimise it. The statistics can be used to improve the web services and make them more interesting for users. The use of Google Analytics can be deactivated at any time at <https://tools.google.com/dlpage/gaoptout?hl=en>. An opt-out-cookie is set which prevents the collection of your data during future visits to this website.

Google complies with the data protection regulations of the so-called "EU-US Privacy Shield" framework agreement and is registered with the "EU-US Privacy Shield" programme of the US Department of Commerce. Further information on the data protection regulations of Google are available at <https://policies.google.com/privacy?hl=en>.

The storage of Google Analytics cookies is based on Article 6 (1) lit. a GDPR. The analysis of user behaviour for optimisation of the website and advertising of the website operator is only conducted with your consent.

Additional information on how Google Analytics deals with user data is available in Google's privacy policy at: <https://support.google.com/analytics/answer/6004245?hl=en>.

#### *Google Tag Manager*

With the Google Tag Manager, marketers can manage website tags via an interface. The Tag Manager itself, which uses the tags, however, works without cookies and does not collect any personal data. The Google Tag Manager merely triggers other tags which may in turn collect data, but not use it. If you have disabled cookies or otherwise deactivated them, this will apply to all tracking tags used with the Google Tag Manager; i.e. the tool does not change your cookie settings. Additional information on how the Google Tag Manager works is available at: [https://support.google.com/tagmanager/answer/6102821?hl=en&topic=2574304&ctx=topic&visit\\_id=637263346972518880-1725731208&rd=2](https://support.google.com/tagmanager/answer/6102821?hl=en&topic=2574304&ctx=topic&visit_id=637263346972518880-1725731208&rd=2).

It is possible that Google will request your consent to share some product information (e.g. your account information) with other Google products to activate specific features, e.g. making it easier to add new conversion tracking tags for AdWords. Google's developers also periodically review product usage information to further optimise the product. Google will however never share this data with other Google products without your consent.

#### *IP anonymisation*

On behalf of the operator of this website, Google will use this information to analyse the use of the website, create reports on website activities and provide the website operator with additional services related to website and internet use. The IP address transmitted by your browser as part of Google Analytics will not be merged with other Google data.

#### *Browser plug-in*

You can prevent the storage of cookies by configuring the relevant settings in your browser software. However, please note that if you do this you may not be able to use all the functions of this website.

You can also prevent Google from collecting the data generated by the cookie and relating to your use of the website (including your IP address) as well as the processing of this data by Google by downloading and installing the browser plug-in available at: <https://tools.google.com/dlpage/gaoptout?hl=en>.

#### **d) Use of social media plug-ins**

Our websites use the social media plug-ins from the social networks Facebook (operated by Facebook Inc., 1601 S. California Ave, Palo Alto, CA 94304, USA, privacy policy at <https://www.facebook.com/help/568137493302217>), Instagram (operated by Instagram Inc., 1601 Willow Road, Menlo Park, CA 94025, USA, privacy policy at <http://instagram.com/about/legal/privacy/>) and LinkedIn (operated by LinkedIn 1000 W Maude Ave Sunnyvale, CA, privacy policy at <https://www.linkedin.com/legal/privacy-policy>). You can recognise the plug-ins by their corresponding logos. When you visit our website, your browser will create a direct connection to the plug-in operator's servers. The content of the plug-in is directly transmitted to your browser, which integrates the plug-in into the website. As the provider of the website, we have no knowledge of the content and scope of the collection and use of this data. In the event that a user is not a member of the social media networks used by us, it is still possible that their IP address will be obtained and stored by the operator of the relevant social media network.

We have built dynamic links to social networks. You will find the relevant links on the website under the "share" button. Under the "share" menu you will find a selection of social networks through which you can share content from our website. If you click on the button of a specific social network while you are signed into the relevant social network, the social network operator will recognise this. Your browser will create a direct connection to the server of the relevant social network. The social network receives the information that your browser has accessed from the corresponding page of our website. This information (including your IP address) is transmitted from your browser directly to the social network server and stored there. The social network also directly assigns your visit to our website to your profile. If you click on the button of a social network, you will be directly forwarded to your profile on this social network. You can then use the usual functions such as "share".

We may integrate and use Facebook remarketing tags on our websites. The default settings of the Pacojet websites are configured so that the integrated remarketing tags are deactivated. After selecting and activating the remarketing tags, a direct connection is created between the browser of the visitor to the website and the Facebook server. Facebook thus obtains the visitor's IP address and with this the information that the visitor has visited the corresponding website. This allows Facebook to allocate the visitor to the Pacojet website to the possible Facebook user account of the visitor. Pacojet can use such information to display Facebook ads. If a visitor to the Pacojet website is forwarded to Facebook, Facebook's privacy policy will apply. Additional information is available in the Facebook privacy policy at <https://www.facebook.com/about/privacy/>.

If you do not want the operators of the social media networks to be able to associate your visit to our websites with your social media user account, please sign out of the relevant social media networks before visiting our website.

#### **e) Transmission within the corporate group**

The data that we share within our group of companies are jointly processed by us as required for internal administrative purposes including joint customer support.

### **4. Security**

We use appropriate technical and organisational security measures to protect your data from accidental or intentional manipulations, partial or complete loss, destruction or against unauthorised third-party access. Our security measures are continuously improved in line with technological developments.

### **5. Rights of the data subjects**

Under the respective legal requirements, you have a right to information regarding the personal data stored about you, the right to rectification of incorrect data, the right to restriction of processing and/or

erasure as well as the right to data portability and the right to object. To exercise your rights and in case of any further questions on the use of your personal data, please do not hesitate to contact us. Please address your request to the contact person named in Section I. b) with clear identification of who you are.

You have the right to withdraw your consent to the processing of personal data at any time. The withdrawal of consent will, however, not affect the legitimacy of the processing which occurred prior to the withdrawal of consent.

You have the right to launch a complaint with a supervisory authority, in particular in the member state of your place of residence, your place of work or the place of the alleged violation, if you are of the opinion that the processing of your personal data is unlawful.

We do not make automated decisions including profiling.

## **6. Storage location and storage duration of your personal data**

We store your data on systems based in USA. Unless specifically stated otherwise, we will only store personal data for as long as necessary to fulfil the pursued purposes or as required in accordance with the legal regulations, in particular statutory retention requirements, or until you withdraw your consent.

## **7. Links**

This Privacy Policy applies solely to Pacojet; it does not extend to third parties to which we refer via our website. We have no influence on the privacy policies of the third parties linked with our websites. The operators of the linked websites are solely responsible for their content.
